

“Distinguished Lecture Series”

Lecture by Dr. Ranjit Kumar Singh

Principal, Model College, Rajmahal, Sahibganj, Jharkhand, India

Dr. Ranjit Kumar Singh addressing Students and Teachers of DIPSER

The 19th Lecture of Distinguished Lecture Series was organised by Dev Sangha Institute of professional Studies and Educational Research, Deoghar on 25th November 2023, on the topic “Importance of education in Conservation of environment”. The lecture was delivered by **Dr. Ranjit Kumar Singh**, Principal, Model College, Rajmahal, Sahibganj, Jharkhand, India.

Dr. Ranjit Kumar Singh focussing on the importance of Education. He elaborated that Education plays a pivotal role in the conservation of the environment, serving as a powerful tool to foster awareness, understanding, and sustainable practices. Education creates awareness about the interconnectedness of all living things and their reliance on a healthy environment. People learn how human activities, from deforestation to pollution, can adversely affect ecosystems and biodiversity. This awareness forms the foundation for an environmentally conscious mindset. Education equips individuals with the knowledge to make informed choices. When people understand the environmental impact of their actions, they are more likely to adopt eco-friendly habits. This can range from simple practices like reducing waste and conserving energy to more complex decisions like supporting sustainable industries. Furthermore, education instills a sense of responsibility and stewardship. Individuals, armed with knowledge, feel a connection to nature and a duty to protect it for future generations. This sense of responsibility extends beyond personal habits to advocacy for policies and practices that promote environmental conservation on a larger scale. Moreover, education drives innovation and technological advancements geared towards sustainable solutions. In essence, education acts as a catalyst for change, fostering a collective commitment to environmental conservation.

The lecture was highly interactive, as it was in face to face mode, and was attended by Teachers and Students of Dev Sangha Institute of Professional Studies and Educational Research. The entire programme was anchored by Student Teachers of B.Ed. Aishwarya Anup and Aditi Raj.
