

What is DELNET

DELNET (Developing Library Network) is a pioneering resource-sharing network in India, established to connect libraries and facilitate access to diverse resources, including books, journals, and databases. It promotes interlibrary loans, e-resources, and collaborative research. DELNET aims to enhance knowledge dissemination, bridging gaps between libraries and researchers nationwide.

Objectives:

The main objectives of DELNET is to promote resource sharing among the Member-Libraries by collecting, storing and disseminating information and by offering networked library services to users; to undertake research in the area of information science and technology, offer technical guidance to Member-Libraries; coordinate efforts for suitable collection development; facilitate and promote Inter Library Loan and delivery of documents, etc.
